SUMMER

Camp

**SONOMA
COUNTY, CA**

HELLO CAMPERS,

We would like to invite and warmly welcome new and returning Campers to join us for all the activities we have planned for 2015! This summer will be full of some of your old favorites as well as some new activities we've never had before. With prior notice, tennis and/or swimming clinics may be added before or after themed camps and field trips for additional fun. We're also bringing back the classic camp called "Summer Fun" on all Mondays and Tuesdays through September 1, 2015.

Even before Camp Mayacama officially begins on June 8, you will see that we have planned lots of additional activities and Kids' Nights for you to sign up for! This includes annual themed events on key holidays such as Mother's Day, Easter, Memorial Day, Independence Day, Labor Day, Halloween, and Christmas. Browse through this camp schedule and see how many different events you can attend. With such a huge variety to choose from, there is something for everyone on most days throughout the year!

We will be offering early bird specials for those who sign up at least one week in advance of the camp. Please call Melinda for details on pricing and any questions about camps. In order to participate in any or all of these activities, have your parents call me, email me, or log on to the Members Only Website and register you to join in on the fun, friends, thrills, intrigue, and excitement all summer long!

Let's enjoy a summer to remember together!

The class will learn card, coin, rope, and mentalism tricks. These tricks will be able to be performed with everyday house hold items or props given to the students during the class. The camps will ensure there is a maximum a 10 to 1 ratio in the class giving the student the utmost attention and practice time during the camp. The student will have 6 solid tricks to perform after the camp has concluded, and the student to continue to progress in the magical arts as they choose. This camp will have different tricks than the Magic Camp earlier in the summer, so you will gain all new skills if you want to attend both.

We will travel to the studio of Jennifer Balletto in Sebastopol to explore the world of glass fusion. Referred to as “warm glass”, glass fusion is one of the oldest forms of glass making. Instead of blowing the glass, kilns are used to make the glass molten. Each piece begins with hand-cut, broken, pulled, and ground pieces of glass. These pieces of glass are then designed in a layered manner and through a series of firings (temperatures ranging from 1,200-1,500 degrees) a new piece of glass is formed. Glass is an extraordinary medium for artistic expression; you won’t believe your eyes when you see the amazing projects that your child will produce in this workshop. Projects will be available for pick-up the following week or shipped upon request.
