It is important all young people remember the importance of showing respect and good manners for other people and property. During certain times of the year our Activities Team offers events and extended activities. Children must be signed in and out by a parent. Meals are ordered from the Mayacama kids' menu at the parent's request. Mayacama can provide a list of options for childcare providers. Due to liability issues, we cannot coordinate childcare on a member's behalf.

CORKAGE FEES

The corkage fee for all wine purchased through the Club is complimentary. This includes wines purchased through our retail program, wine offers, special purchases, or from our wine list. Prior to shipment or placement in your wine locker, a special sticker is applied to each bottle as a way to identify it as purchased through the Club. GOLF ETIQUETTE (continued)

Playing with the Club's Golf Professionals

When scheduling permits, Members enjoy the opportunity to play a round of golf with one of the Club's Golf Professionals. In such a situation, it is customary for the Member to cover the Golf Professional's caddie fees.

Stopping at the Turn

To maintain a continuous flow, all players should limit their time at the turn. A group should only take a few minutes for a brief restroom break, a beverage and a snack "to go". A telephone at the 8th green should be used to expedite orders with the Snack Bar. Players who stop for lunch will forfeit their turn on the 10th tee and will have to wait until a vacant spot becomes available in order to continue their round.

GUESTS

Accompanied

Members are limited to one guest per Member prior to 10:00 a.m. on weekends (Saturdays & Sundays) and holidays. The Club may limit from time to time the number of guests that may accompany a Member on the course. A guest may play no more than six times per calendar year at Mayacama regardless of the sponsoring Member. Members are responsible for the conduct of their guests while visiting the Club. This includes adherence to appropriate attire and etiquette. Members are responsible for all fees incurred by their guests.

Extended Family

Extended family includes parents, grandparents, adult children over the age of 25, and grandchildren of primary Member and spouse. Members are responsible for the conduct of their family while visiting the Club. This includes adherence to appropriate attire and etiquette. Members are responsible for all fees incurred by their family.

Unaccompanied

Unaccompanied guests are not permitted to play golf on weekends (Saturdays & Sundays) and holidays. The Club allows a limited number of unaccompanied guests from time to time. Members are responsible for the conduct of their guests while visiting the Club. This includes adherence to appropriate attire and etiquette. Members are responsible for all fees incurred by their guests.

HANDICAPS

Handicaps are computed under the supervision of the Golf Professional and in accordance with the United States Golf Association. To ensure fair and accurate handicaps, it is the responsibility of all Members to post a score for every stipulated round that is played. To establish a USGA Handicap, please call the Golf Shop. All scores must be turned in to the Golf Shop on a signed, attested scorecard. If you are currently a Member of a club with an established USGA handicap, please advise a member of the golf staff and give them your GHIN number. For Members who use the GHIN (Golf Handicap and Information Network) service to maintain their Handicaps, please note that there is an annual fee which is automatically billed to Member accounts.

HOLE-IN-ONE INSURANCE RULES AND REGULATIONS

As a golf member you will be automatically enrolled in Hole in One Insurance. Please contact the Golf Shop if you wish to opt out.

Members of Mayacama 25 years of age and over are signed up for the hole-in-one insurance unless they opt out. Once you opt out, the insurance will be removed permanently. You do not have to opt out every year.

They will be charged \$5.00 every time a member with the insurance makes a hole-in-one.

The amount awarded to the lucky member will be split between golf shop credit, drinks in the restaurant, and a hole-in-one plaque.

Each hole-in-one must be witnessed by at least one other golfer. One of the witnesses must be 18 years of age or older.

The golfer must complete a 9-hole round in which the hole-in-one occurred to validate the hole-in-one and receive the club credits.

The member who made the hole-in-one and the witness must sign the scorecard, and then turn into the Golf Professional Staff. If the hole-in-one was made after the Golf Shop is closed, the next day will suffice.

JUNIORS

While the Club encourages and promotes junior golf, please be reminded that children under sixteen years of age are not allowed to use the golf facilities unless supervised by an adult, and/or certified by the Golf Professional Staff as knowledgeable and schooled in golf course etiquette and rules. Juniors, sixteen years of age and over, are permitted to play the course and use the practice facility unaccompanied, provided that they display proper etiquette while on the premises. LOCKER ROOMS

Changing clothes and shoes should take place in respective locker rooms rather than in the Club parking lot. At this time all golf lockers are shared. Please be considerate of your locker mate by storing minimum items in a neat and tidy manner. All children under the age of sixteen must be accompanied by an adult, eighteen years and of age or older when using the Club Locker Room facilities.

PACE OF PLAY

Mayacama Golf Club places a high priority on pace of play. It is the responsibility of all players not only to maintain a proper pace of play for themselves, but also for their group. Here at Mayacama, we have a time par for playing 18 holes as listed below. Our caddies will monitor your pace beginning when the first ball is struck from the first tee, and let your group know how you are doing relative to your pace at four separate "check-points". A general rule of thumb, please keep up with the group in front of you.

	Start Time	4th Hole	9th Hole	14th Hole	18th Hole
Four-Ball	0:00	0:56	2:08	3:17	4:15

Two-Ball	0:00	0:50	1:58	2:57	3:45

Elapsed time when flagstick placed in hole:

The Golf Professionals are present to control the pace of play, enforce any special rules pertaining to certain golf course conditions and golf car restrictions. They have full authority on the course to enforce the Rules and Regulations set forth by the Club. Please follow their directives.

PRACTICE BALLS

Practice balls are for use on the practice facility only. Practice balls are not permitted to be used on the course at any time. Any Member or their guest found using practice balls on the golf course will have their playing privileges suspended for a period of time.

PRACTICE FACILITY

Balls must be hit from designated areas only, usually defined by tee markers or ropes on the practice ground. Please concentrate your hitting area on the practice area for faster recovery of the turfgrass. Please be courteous to others while using the Practice Facility by keeping noise levels and conversations to a minimum. Juniors, sixteen years of age and over, are permitted to use the Practice Facility unaccompanied, provided that they display proper etiquette while on the premises. Children under sixteen years of age must be accompanied by an adult or must be approved by the Professional Staff in order to utilize the Practice Facility. PRIORITY OF PLAY

A four-ball will generally have priority on the course over singles, two-balls and three-balls. Accordingly, groups of less than four should not expect to play through a four-ball unless there are open holes ahead. While four-balls usually have priority on the course, players should always maintain a quick pace of play and continue to exercise good judgment and consideration for each other throughout their round. During busy periods, singles and two-ball matches may play only at the discretion of the Professional Staff. Two-balls and singles may be grouped with other players, when practical. A two-ball should not exert any pressure on the group ahead. Four-ball matches shall have the right of way.

RESPONSIBILITY

The Club shall not be responsible for any loss or damage to any property left or stored on the premises. No person shall remove from the grounds any property belonging to the Club without authorization.

SMOKING

In order to protect the Club facilities and assets from fire danger, smoking of any kind is not permitted anywhere on the Mayacama property except in the designated smoking areas. Designated smoking areas are restricted to the private Women's Locker Room Terrace and the Library Terrace outside the Men's Locker Room. Smoking is not permitted anywhere on or near the Golf Course or Practice Facility.

STARTING TIMES & HOLES

While starting times are not currently required at Mayacama, we encourage you to let the staff know when you plan to play the course; especially during weekends and busy holiday periods. This will assist the staff in scheduling caddies accordingly. All play shall start at Hole # 1 unless otherwise authorized by the Golf Staff. Starting on Hole #10 without prior authorization from the Golf Shop is not permitted. "Cutting-in" is not permitted at any time. At no time should the pace of a Member's round be interrupted by someone starting on a hole other than Hole # 1.

For more details, Members can refer to Rules & Regulations as found in Mayacama Membership Plan.

MAYACAMA MEMBERSHIP GUIDE

hiking trail guidelines

ABOUT THE TRAIL

The Mayacama Trail offers a fascinating glimpse into Sonoma County's unique ecosystem and the rugged, natural beauty that is Mayacama. The hike itself is of moderate difficulty, approximately 2 miles round trip. The Mayacama Trail presents a diversity of landscapes from gentle, creek-lined valleys to rolling hills and sweeping ridge top vistas. At the crest of the northern ascent are views east to the Mayacama Range and Mount St. Helena and west over Santa Rosa to the Coastal Range. If there is ever an urgent need for assistance while on a hike, there are emergency call boxes on holes 15 and 16.

COYOTES

Coyotes are a very important part of our ecosystem because they keep certain populations such as mice and rabbits in control. Since they are naturally timid animals and active mostly early in the morning and late in the evening, it is rare that you will come in contact with them. Do not feed coyotes. Use negative reinforcement such as yelling and clapping if you come upon a coyote.

MOUNTAIN LIONS

Elusive and largely solitary by nature, the mountain lion is considered nocturnal, although sightings during daylight hours do occur. Most mountain lions will avoid confrontation with people, but if you encounter a mountain lion, do not run; instead face the animal, make noise and appear larger than you are by waving your arms. Give them a way to escape.

POISON OAK

This shiny, three-leafed plant is found growing in a vine-like pattern on trees or can also be seen in a more shrub-like form to 8 ft. in height. This plant is notorious for causing relatively benign to severe skin rashes and should be avoided. If hikers have questions on what it looks like, there is a good rule of thumb to follow: "Leaves of three, let them be." If a Member or guest feels she or he has been exposed to poison-oak during their hike, ask the Locker Room Attendant for product to help reduce the risk of a rash.

RATTLESNAKES

Rattlesnakes strike when threatened or deliberately provoked, but given room they will retreat. Most snake bites occur when a rattlesnake is handled or accidentally touched by someone walking or climbing. If bitten, stay calm. Elevate the bite and call for assistance to urgent care as quickly as possible.

TICKS

Ticks are small insect-like creatures that are most often found in naturally vegetated areas, grasses and small brush. It is recommended that hikers wear light colored clothing and inspect themselves closely for ticks upon completion of the hike. If you find a tick, you should remove it with tweezers by grasping it close to the skin and applying a steady upward pressure to make sure the entire tick is pulled free.

VINTNER PROGRAM

etiquette

TASTING ROOMS

When visiting a wine tasting room, consider yourself a guest. The owners and staff are proud of their facility and want everyone to enjoy their visit. We have created a selection of ideas to keep in mind when visiting a winery tasting room. Simple rules of etiquette can help to make the experience enjoyable for all.

- Contact the winery to check hours of operation, make an appointment, or ask our Concierge for assistance.
- Keep and be on time for your tasting appointments. The wineries bring in extra personnel when we book special tours. If you don't show for a tasting, you may be charged the full tasting fee.
- Most wineries do not allow children younger than 21 years of age. Contact the winery before bringing children on your tour.
- Many wineries are dog friendly if kept on a leash. Contact the winery before bringing pets on your tour.
- Wearing comfortable and casually elegant clothing sets the tone for a sophisticated outing and is a sign of respect for wineries.
- Do not wear perfume or heavily scented cologne as the scents will interfere with the subtle aromas in wine and interfere with your own and others' experience.
- The tasting room is a relaxed and conversational environment. Loud outside voices are inappropriate.
- Be open-minded and drop pre-conceived preferences. Try something new and you may be pleasantly surprised.
- Moderate your intake and drink plenty of water to stave off dehydration.
- If you do not want the rest of the wine in your glass, make use of the tasting buckets.
- If you choose not to taste a particular wine, cover your wine glass with your fingers.
- Drunken behavior has no place in the atmosphere of the tasting room.
- Tipping at the winery is optional but appreciated if the service is excellent.
- By law no outside alcoholic beverages or wine from other wineries are permitted at wineries.
- If planning a picnic lunch at the winery, purchase and enjoy one of their wines with your meal.
- Always use a designated driver.
- By law no alcoholic beverages are permitted in the limo unless there is a closed window that separates you from your driver.
- Most of all, have fun and ask lots of questions.

VINTNER PROGRAM

seminars

Our wine education program can be a great part of your Wine Country Experience. All seminars are customized to meet the specific interests of our Members and their guests. Each seminar is hosted by either our Wine Director or Assistant Wine Director. Your costs for these events cover the wines used, any food served, and any vehicle charges for field trips. Services of the Wine Team are complimentary. Seminars are reserved for Mayacama Members and their accompanying guests. Seminars are only offered Tuesdays through Saturdays with two week advance reservations. Here are some examples of our popular seminars.

AROMAS OF WINE: LE NEZ DU VIN

Experience the aromas found in wine, where they come from, what they mean, and how that translates to the dinner table. The Le Nez du Vin is a professional wine sensory kit. The taste of wine derives from its chemical composition and its grapes, as well as winemaking techniques and aging methods. Using a mixture of scents and descriptions, the kit helps wine tasters learn about the aromas that characterize different wines. The Le Nez Du Vin helps people awaken their curiosity for odors and helps them recognize those aromas found in wine. The introductory seminar will feature a specific varietal. Seminar is one hour and limited to 10 people.

FARMING FOR FLAVORS

How does farming affect the flavors of wine? We will discuss mechanized farming verses sustainable farming and look at the effects of different farming philosophies and how they translate to the quality of wine and health of the vineyard. Sustainability is the future of viticulture with all of Sonoma County Wineries and Vineyards becoming certified sustainable by 2019. Seminar includes a field trip hosted by the Wine Director. Seminar is three hours and limited to 10 people.

HILLSIDE VS VALLEY FLOOR

Taste and discuss the influences of terroir in Napa Valley Cabernets by exploring the differences between hillside vineyards verses valley floor vineyards. Learn how these different regions affect flavors and styles of wine and learn how these wines pair with food and the best time to serve each. Well known wines will be tasted and discussed. Seminar is one hour and limited to 24 people.

INTRODUCTION TO VITICULTURE

A beginner's look at viticulture/farming. Based on the time of year, topics covered include planting, pruning, trellising, spacing, types of vine training, green harvest, pest control, etc. Seminar includes a field trip hosted by the Wine Director. Seminar is three hours and limited to 10 people.

NEIGHBORHOODS OF THE RUSSIAN RIVER VALLEY

Sonoma County has more diverse soils and micro-climates than the entire country of France. Each of the five Russian River neighborhoods offer different soil types and weather which affects styles and flavors. You will taste wine from each neighborhood and learn what sets each one apart. Wines from each neighborhood will be tasted and discussed. Seminar is one hour and limited to 12 people.

DANA ESTATES :: HI-SANG LEE & YOUNG HWA CHUNG

Nestled at the base of the Mayacamas Mountains in the heart of Cabernet country, Dana Estates is dedicated to making small lots of truly distinctive world-class wines. The winery has been constructed around the original stone walls built in 1883 by vintner H.W. Helms. Architect Howard Backen worked closely with winemaker Philippe Melka to design a winery that allowed the winemaking team the space and facilities to control all aspects of the vinification process.

DUMOL:: KERRY & MARGIE MURPHY

The 25 acres of the DuMOL Vineyard grow on the east-facing slope of one of the Russian River Valley's most famous rocky ridgelines. Here, the warm sky of sunny days lingers into the dusk as the hillside creates one last hurdle for the evening's marine-cooled air. Robert Parker ranks Dumol as "one of my favorite half dozen producers of California Chardonnay as well as one of the top 20 in terms of Pinot Noir".

DUTCHER CROSSING :: DEBRA MATHY

Dutcher Crossing wines are meticulously handcrafted. From the selection of special blocks of choice grapes within a vineyard to the small open-top fermenting tanks, all wines receive the hands-on attention required to produce wines of the exceptional quality that exhibit the intense flavors and character of each varietal. All wines are then aged in American, French or European oak barrels until they are ready for bottling.

At Failla Wines you will enter a unique 12,000-square-foot cave, home to subterranean production facilities that utilize the earth's insulation properties to cut energy costs, as well as barrel storage, hospitality areas and some excellent wine – like Ehren's Burgundian Pinot Noirs, Rhone-style Syrah and Viognier, and Chablis-like Chardonnay.

FISHER VINEYARDS :: ROBERT & HEATHER FISHER

Soon David was well versed in Sauvignon Blanc from California, and in 2004 he purchased that vineyard. David was introduced to Vance Rose, a wine marketing veteran with 30 years of experience.

HARLAN ESTATE :: WILLIAM & DEBORAH HARLAN

Described by the Harlans as a “place of great inspiration,” this 240-acre winery is set among the natural splendor of Oakville’s western hills, nestled above the Napa Valley benchlands. The result is carefully chosen grapes that are among the most celebrated in the world.

HAUCK CELLARS :: GREG & JENNIFER HAUCK

There is simply one word to describe the wine and its winemakers here: passionate. JACKSON FAMILY WINES :: RICK & WENDY TIGNER

Jackson Family Wines was founded in 1982 with a belief in three time-honored principles: the importance of family, the molding of character through hard work and the creation of high-quality wines through long-term stewardship of the land. Thirty years later, Jackson Family Wines remains a family-owned and family-run business, a distinction that is rapidly becoming a rarity in the wine industry. The Jackson family continues to embed these core values into the company's local and global practices.

JOSEPH PHELPS VINEYARDS :: WILLIAM & ANDREA PHELPS

LA FOLLETTE :: PETE & TERESA KIGHT

La Follette wines are guided by the principle of allowing each vintage from their vineyard sites to be its own masterpiece. Greg La Follette, our founding winemaker, whose passion was to capture the unique flavors and textures of the Coastal California terroir, forged the guiding principles behind La Follette wines. An imperative in realizing Greg's vision is sourcing fruit from the very best regions and vineyards along the Coast of California. Simone Sequeira, La Follette's winemaker, has learned and embraced the philosophy of terroir-driven wines. La Follette continues to build upon the tradition of creating wines that authentically reflect their origins.

Tucked in the cool southwestern corner of Alexander Valley, Stuhlmuller's 150 acres encompass prized river benchlands and rocky hillside soils at the convergence of three of northern Sonoma's top appellations. On summer mornings, fog rolls in through the Chalk Hill gap. Soon, afternoon temperatures rise and the fog burns off. As the day progresses, Pacific breezes enter the gap and the vines cool off once again. This ideal microclimate combined with the location's varied terroir allows for the growing of three exceptional, complex varietals.

TOR KENWARD FAMILY WINES :: TOR & SUSAN KENWARD

Tor Kenward established TOR Kenward Family Wines in 2001 after a 27 year career in the wine industry. From his large stone house overlooking the Napa Valley, Tor Kenward directs this small family-owned winery, which specializes in limited-production, single-vineyard wines that exemplify Napa Valley's most famous sub-appellations. " Luckily, I am working today with people whom I consider to be extraordinary growers dedicated to growing the highest quality grapes," explains Tor. "We farm these special vineyard sites acre-by-acre -- meaning we work together to achieve the best possible grapes."

VINEYARD 7 & 8 :: WESLEY & JESSICA STEFFENS

The terraced slopes of Vineyard 7 & 8 reside high above the valley floor producing the highest-quality wines that express the unique characteristics of the Spring Mountain District. Growing above the morning fog line, the fruit of these vines bathes in sunlight three hours earlier than the grapes in the valley below. This microclimate and unique terroir explain why this area has grown grapes since the Civil War.

WALTER
HANSEL
WINERY

WALTER HANSEL :: STEPHEN & CAROL HANSEL

Walter Hansel produces their wine in a way that each wine is allowed to express its unique character; never compromising the wine's freshness, finesse or texture. Grapes are hand harvest and manually sorted; once in the vineyard and once in the winery. The Pinot Noir is destemmed and gravity guides the whole berries into open topped fermenters. The Chardonnay is whole-cluster pressed into French oak for fermentation. Every vineyard block is traced from the harvest bins to the barrel to the settling tank before bottling.
